UK PLYMOTH™

EXTRACTOR CRANE WITH HOSE

Rigid extractor crane with additional telescopic hose tube arm for covering large working areas.

The crane consists of two horizontal parts with metal tubes with a maximum reach of 8 m. The wall and middle hinges provide utmost flexibility. The hose at the end of the crane drops vertically down. The hood is 110° movable in four directions.

The crane is provided with hooks for the suspension of e.g. a wire feeder, cables and tools.

APPLICATIONS

The UK "Plymoth" is intended to be used for the following applications:

- MIG-MAG/GMAW welding
- TIG welding
- FCAW welding
- stick/MMAW welding

SPECIFICATIONS

| Physical dimensions a | ind properties |
|--|---|
| Diameter: • tubes • hoses | • Ø 160 mm (6.3 in.) • Ø 160 mm (6.3 in.) |
| hood opening | • Ø 300 mm (11.8 in.) |
| Material of hose | flame-retardant PVC, reinforced with spring steel wire |
| Colour | black |
| Weight capacity for suspension of tools etc.: • inner crane (wall side) • outer crane (hose tube side) | • max. 50 kg (110 lbs.) • max. 10 kg (22 lbs.) |
| Performance | |
| Recommended airflow | 800-1200 m³/h (470-710 cfm) |

WORKING REACH

Distances: refer to above table Remaining specifications

PRESSURE DROP

FEATURES & BENEFITS

Telescopic hose tube with counterweight for easy movement

Using the suspension hooks underneath the crane increases the ease of use and prevents damage to the equipment by collision

Extended reach for a variety of welding positions

Application restrictions

Do **not** use the product for the following applications or in the following circumstances: polishing applications in combination with grinding, welding or any other application that generate sparks (fibres from polishing or abrasive flap disks are highly flammable and pose a high risk of filter fires when exposed to sparks) | aluminium laser cutting | oil mist | heavy oil mist in welding fume | arc-air gouging | extraction of aggressive fumes and gases (e.g. from acids, from alkaline, from soldering paste containing lithium) | extraction of hot gases (more than 70°C/158°F continuously) | grinding aluminum and magnesium | flame spraying | extraction of coment, saw dust, wood dust etc. | sucking cigarettes, cigars, oiled tissues and other burning particles, objects and acids | explosive environments or explosive substances/gases
